Team ID	SWTID-2026-2662
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	2 Marks

Proposed Solution Template

This table maps your project details directly into the structured template requested

S.No.	Parameter	Description
1.	Problem Statement <i>(Problem to be solved)</i>	Fragmented business processes at THECHAISHOP&CO, including manual order tracking, error-prone billing, unstructured customer data management, lack of validation, and absence of real-time analytics tracking.
2.	Idea / Solution description	A cloud-based Salesforce CRM application featuring automated order processing, formula-based billing, automated email alerts, secure role management, and validation check systems.
3.	Novelty / Uniqueness	Seamless integration of enterprise-tier workflows, localized Indian identification validation rules (PAN/Aadhaar), and dynamic cloud-based automation (Salesforce Flows) tailored for a specialized retail chain setup.
4.	Social Impact / Customer Satisfaction	Maximizes customer satisfaction through targeted milestone notifications (birthdays, promotions) and secures customer trust with strict profile data access controls and secure cloud storage.
5.	Business Model <i>(Revenue Model)</i>	Operational efficiency optimization that minimizes manual overhead, eliminates calculation errors through formula fields, and drives repeat business via automated engagement flows.
6.	Scalability of the Solution	Highly scalable cloud architecture utilizing standardized global picklists, record types, and centralized user role management, allowing quick replication across new franchise branches.
