

Team Involvement in Demonstration

Date	3 JULY 2026
Team ID	SWTID-2026-2662
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	Hema Sai Sree (Team Leader)	Team Lead & Backend Presenter	Project Overview, Backend Architecture, FastAPI APIs, Database Integration	Led the team, coordinated project activities, developed backend APIs, managed FastAPI integration, explained database connectivity and overall system workflow.	Active
2	Nithya Sree	Project Coordinator & Architecture Presenter	Problem Statement, Enterprise Architecture, Workflow, Project Conclusion	Coordinated project planning, presented enterprise architecture, Agile workflow, project objectives, future scope, and concluded the demonstration.	Active
3	Dharani	AI & Financial Processing Presenter	Financial Health Analysis, Settlement Prediction, AI Negotiation Strategy	Demonstrated AI- powered financial analysis, debt stress calculation, settlement prediction engine, and AI negotiation strategy generation using Google Gemini AI.	Active

4	Shalini	Frontend & User Interface Presenter	User Authentication, Dashboard, Frontend Features	Demonstrated user registration, login, dashboard, responsive interface, and explained frontend navigation and user interaction.	Active
5	Entire Team	Live Feature Demonstration & Testing Support	End-to-End System Demonstration	Collaboratively demonstrated complete project workflow, validated integrated modules, assisted during live testing, and resolved demonstration queries.	Active
6	Entire Team	Q&A and Project Discussion	Question & Answer Session	Collaboratively demonstrated complete project workflow, validated integrated modules, assisted during live testing, and resolved demonstration queries.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Hema Sai Sree – Coordinated the project activities, assigned sprint tasks, monitored progress, managed backend development, organized team meetings, and ensured timely completion of project milestones.
Overall Team Coordination Rating (1-5)	5 / 5 – The team maintained excellent coordination throughout planning, development, testing, and final project demonstration by following the Agile sprint workflow.
Any issues during demo	Minor issues were encountered during API integration and AI response generation, along with a few UI synchronization delays. These issues did not significantly affect the overall project demonstration.
How issues were resolved	The team collaborated through regular discussions, verified API endpoints, tested backend services, synchronized frontend and backend modules, validated Google Gemini AI responses, and performed final testing before the demonstration, resulting in a successful end-to-end project presentation.
